Thank you for purchasing this theme. Please feel free to contact me if you have any questions or inquiries.

HTML

Realtor is a modern real estate HTML landing page built using Bootstrap 3.1.1 framework.

`index.html` is the main HTML file of this theme.

The markups are well-commented and has the corresponding heading when you are to edit the CSS file.

For example, if you are to edit the footer in the HTML file:

```
<!-- Footer -->
```

Look for the following in the CSS file:

```
/*-----  
    FOOTER  
-----*/
```

HTML files included:

```
index.html  
more_listings_1.html  
more_listings_2.html
```

CSS

`style.css` is the main CSS file for this theme. Aside from the Bootstrap core CSS file, here are the other CSS files included in this theme:

Font Awesome

`fontawesome.min.css`

Flexslider

`flexslider.css`

JAVASCRIPT

This theme has the default Bootstrap's core jQuery. `scripts.js` is the main js file. It is advisable not to edit these files. `scripts.js` contains all the plug-in initialization.

Includes some other plugins:

`jquery-1.10.2.min.js`
`jquery.fitvids.min.js`
`jquery.easing.1.3.min.js`
`jquery.flexslider.min.js`
`modernizr.js`

PHP

This template includes a working contact and subscribe forms. The files are commented to guide you how to change your own MailChimp account.

Setup MailChimp

1. Open `subscribe.php`
2. Enter your API key
3. Enter List ID
4. Important: Make sure to setup the correct submit URL
e.g
if you have us3 last 3 digit in your API key, you should change the URL to us3.

Default submit URL:

`http://us2.api.mailchimp.com/1.3/?method=listSubscribe`
